

Stonewall Collegiate Institute Community Report June 2017

SCI has a dedicated staff of 40 teachers and over 20 support staff working together to provide students with a quality education and a safe school environment. Stonewall Collegiate Institute has a student population of 440 in grades 9 through 12. SCI offers a wide range of academic courses and gives students the opportunity to obtain additional credits in a variety of options including drama, band, choral, jazz, woods, metals, foods, clothing, family studies, drafting, electronics, career development and business. Resource programming offers a wide range of support including social and academic counseling, special needs programs, apprenticeship options, work-experience, peer assistants as well as modifications and adaptations to regular programs.

We offer a wide range of extra-curricular activities available for all students who wish to participate.

The high school experience is what you make of it - at SCI the staff ensures that programs are available to provide all students with an engaging experience!

We encourage everyone to get involved and get the full experience!

Mr. J. Cassils, Principal

...SCI's Link Crew did a fantastic job of welcoming our Grade 9 students and walking them through orientation on the first day. This program allows connections to be formed between junior and senior students right from Day 1.

...SCI's musical "The Drowsy Chaperone" was a hit with all who attended! Congrats to all of the students and staff who were involved with this production...many hours of work went into this venture.

...SCI's Band and Choral programs had another successful year of concerts, workshops and development!

...SCI's Class of 2017 was very successful...112 graduates in all...17 gold medals handed out...great job everybody!!

...SCI athletes had another awesome year...congratulations to all of our student athletes and the parents who joined us at our Sports Banquet on June 26th. Special thanks to all of the SCI staff and outside coaches who give of their time to help guide our student athletes.

The SCI staff established the following goals for 2016/2017...

1. All students will have increased their basic math skills, mental math strategies and be able to relate math to the real world.

- * We implemented a grade 9 Transitional Math course that was able to get grade 9 students engaged in math and at the same time improve their math skills, including mental math strategies.
- * Math teachers attended various professional development sessions that focused on improving math skills, mental strategies and engagement in math students in math.

2. Teachers will use at least two restitution strategies in classes to help develop positive, respectful learning relationships.

- * Discussed and role played ways to use restitution during professional development days.
- * Staff members shared their restitution experiences and stories during staff meetings and professional development days.
- * Administration worked with students and staff to model restitution strategies with students.
- * Staff continued to use their restitution resources
- * Continued to improve the restitution form for students in difficulty

3. Teachers will use at least two technology programs to engage students in their classes.

- * Teachers attended professional development opportunities to help incorporate technology into classes.
- * Purchased technology programs for teachers to use in classes that helped students relate course material to real-life situations much better than text books (simulation activities, etc.).
- * Trained students and staff on Office 365 to use as a collaboration tool.
- * Purchased a laptop cart that greatly increased technology use around the school and gave the ability to teachers to use various technology programs in their classes.
